Hi David,

I reviewed the table over the weekend, and had difficulty understanding it clearly. Do you have some time today to review it with me?

thanks,

Jeanne

**Subject:** draft minimum requirements

Deb and I have drafted a minimum requirements table for monitoring well installation WQ/GW data collection and analysis activities at the SW PA prospective case study site. The table looks at minimum requirements for the EPA component of proposed field activities and does not include other activities proposed by other project partners (such as tracer tests proposed by USGS and NETL).

Let me know you thoughts.

Subject: Re: Pavillion pre-brief presentation

I hope the briefing went well. Sorry I couldn't join you. I imagine that this work held up the preparation of the one pager on the minimum requirements for our PA prospective case study. Do you have a sense of when that will be ready? Ashley Gels is working to set up the mtg w/ DOE and USGS, and we'll need it before hand.

thanks,

jeanne
